**Crisp, vibrant, and packed with freshness everyday!**

**Green beans are small, slender, and straight to slightly curved pods. The pods are semi-smooth and fleshy with a crisp, firm, and tender consistency. Underneath the surface, each pod contains several tiny seeds that are tightly encased in the center, extending the length of the pod. The seeds are vibrant green and are semi-starchy and soft in texture. Green beans have a faint grassy aroma and are sweet, vegetal, and subtly earthy with fresh green nuances.**
